# SolDesign - CAD Software

**Dental**

> Intuitive design of dentures
> CAD software for 3D prin-
ting or milling
> Automatic file transfer to
SolFab for 3D printing

## SolDesign

> Automatic file transfer to integ-
rated 3rd party CAM for milling
> Export of open 3D data for use
in 3rd party CAM systems

# W2P

# SolFab - Slicing Software

> CAM software
> Automated recognition of applications
> Intuitive interface

SolFab

> The SolFab algorithm automatically recognizes dental indications such as splints, templates, dentures, models and more based on the data input
> Automatic generation of print-ready support structures
